

# Mahnoor Saleem

Full Stack Software Developer

+971585962916 | [mhnrsaleem579@gmail.com](mailto:mhnrsaleem579@gmail.com) | [LinkedIn](#) | Abu Dhabi, United Arab Emirates

## PROFESSIONAL SUMMARY

---

Experienced full stack software developer with 6 years of professional software engineering experience. Proficient in utilizing a variety of technologies, such as AWS, Node.js, Express, Nest.js, React.js, and Workbench. Demonstrated expertise in Test-Driven Development (TDD) has led to the successful creation of complex, enterprise-level software solutions. Known for delivering robust, scalable, and maintainable solutions within tight deadlines, while effectively collaborating with global clients and diverse development teams.

## SKILLS & COMPETENCIES

---

### Technical Skills

**Cloud Platform:** AWS (AWS S3, AWS Lambda, AWS CloudFormation, AWS AppSync, AWS Cognito, AWS CloudWatch, AWS API Gateway, AWS EventBridge, AWS SNS)

**Containerization Tools:** Docker

**Javascript:** NodeJs, ReactJs, NestJs, ExpressJs, Typescript, Angular

**API Development:** NodeJs, NestJs, ExpressJs

**Database:** NoSQL Databases (MongoDB, ElasticSearch), SQL Databases (SQL Server)

**Version Control:** Git

**Unit Tests:** Jest

### Transferable Skills

Attention to Detail | Stakeholder Management | Project Management | Problem Solving | User-Centric Mindset

## PROFESSIONAL EXPERIENCE

---

### Department of Municipalities and Transport (DMT)

Consultant Software Developer

Abu Dhabi, UAE

Sept 2023 – Present

Working as a Full Stack Developer using ReactJS, NodeJS with Express and Workbench tool in a microservices architecture.

- Collaborate and partner with designers, product managers, and other developers to ensure cohesive project development.
- Manage the full project lifecycle, from gathering requirements to preparing the project for production.
- Develop and maintain unit tests to ensure code quality and functionality. Create comprehensive test cases and integrate them into the continuous integration pipeline for automated testing.
- Perform extensive testing and debugging to identify and resolve issues before deployment, ensuring a smooth launch process.
- Address and resolve high-priority issues and bugs promptly to maintain system stability and performance.

- Compliance with coding best practices and standards, and continuously improve code quality through regular reviews and refactoring.

### **Systems Limited**

Senior Consultant Developer

Consultant Developer

Junior Developer

### **Lahore, Pakistan**

Jan 2022 - Oct 2023

June 2021 - Dec 2021

Oct 2019 - May 2021

- Developed applications using Angular and ReactJS, integrating frontend technologies with backend services for seamless user experiences.
- Designed and implemented backend solutions with Node.js and Express, working with both monolithic and microservices architectures.
- Applied best practices for clean code to ensure maintainable and efficient codebases.
- Wrote unit tests to validate functionality and ensure code reliability and stability.
- Utilized SQL (MSSQL) and NoSQL databases (MongoDB, DynamoDB) for effective data management and optimized application performance.
- Leveraged AWS Services for cloud-based solutions, including AWS S3, AWS Lambda, AWS CloudFormation, AWS AppSync, AWS Cognito, AWS CloudWatch, AWS API Gateway, AWS EventBridge, and AWS SNS.
- Transitioned from a frontend developer role to a full-stack developer, overseeing complete project lifecycles and client communications.
- Led a frontend development team, provided technical guidance, and conducted client demos to showcase project progress and solutions.
- Recognized as Star of the Quarter in January 2023 for exceptional performance and contributions.
- Followed agile methodologies to enhance project management and development efficiency, ensuring timely delivery and adaptability.

### **Cybersoft North America**

Software Developer

### **Lahore, Pakistan**

March 2019 - Oct 2019

- Conducted detailed analysis to understand project requirements and deliverable expectations ensuring a clear vision for development.
- Proposed, designed, and executed solutions based on project requirements, utilizing Angular for frontend development and ensuring alignment with business goals.
- Implemented and adhered to best practices in coding, including clean code principles and maintainable code structures, to ensure high-quality outputs.
- Coordinated with backend developers, QA engineers, and other stakeholders to ensure seamless integration and alignment throughout the development lifecycle.
- Ensured thorough testing and optimization of solutions for stability, scalability, and security, preparing them for successful production deployment.
- Diagnosed and resolved development and production issues related to Angular applications, providing timely solutions to maintain system stability and performance.

### **AjVortex**

Software Developer

### **Multan, Pakistan**

Feb 2019

- Developed cross-platform mobile applications using Ionic and Angular, with Firebase backend integration.
- Managed projects from conceptualization to production, collaborating with design, development, and QA teams.
- Resolved production and development issues efficiently.

**Vozax**

Software Developer

**Multan, Pakistan**

June 2018 - Jan 2019

- Developed cross-platform mobile applications using Ionic and Angular, with Firebase backend integration.
- Managed projects from conceptualization to production, collaborating with design, development, and QA teams.
- Resolved production and development issues efficiently

**EDUCATION & CERTIFICATIONS**

---

**NFC Institute of Engineering and Technology**

Bachelor of Computer Sciences (Gold Medalist)

**Pakistan**

2014 – 2018

AWS Cloud Practitioner

June 2022 - June 2025
